# MY STORY

**Thank you** for your interest in my lotion love child, *Essentiel Moisture*. 

Years ago, I began seeking an ideal moisturizer — **a nutrient-packed premium ‘face’ cream I could also use on my entire body.**

As a body parts model, I needed a moisturizer that would nourish my skin and keep it hydrated from nose to toes — something that would give that healthy *g/low*, even in macro closeup photography.

I first created lotion-potions in my kitchen, using ingredients I grew up with on an organic farm in California. Then I teamed up with a top formulator and set out to spread the lotion love!

# SIMPLIFYING SKINCARE

If you're tired of countless steps to 'perfect skin' and a multitude of parts-specific creams, we offer a simple solution — **minimal skincare of maximum quality.**

You don't need a bazillion bottles in your bathroom, nor do you need to spend a bazillion dollars to have high quality skincare that *works*.

“ After just one application I was hooked. Leaves skin insanely silky.”

—Byrdie

# WHY ESSENTIAL OILS ARE *ESSENTIEL*

Essential oils are distilled plant extracts that reduce inflammation, regenerate healthy cells and protect against environmental damage. They even help calm the nervous system — aromatherapy has been used for centuries to promote wellness.

**Frankincense** — helps reduce wrinkles, age spots and acne.

**Helichrysum** — accelerates healing and reduces scarring. Potent antibacterial properties.

**Geranium** — improves elasticity and brings out the *glow* that makes skin luminous.

**Lavender** — soothes skin and helps improve psoriasis, sunburn and eczema.

## SKIN NUTRITION

“I completely fell in love. It’s pure heaven, infused with wonderful ingredients. I also appreciate the affordable price point... Even my husband is obsessed!”

—*Who What Wear*

**Hyaluronic Acid (HA):** naturally found in the body and holds up to 1,000 times its weight in water! Keeps skin plump and reduces the appearance of wrinkles.

**MSM:** an odorless sulfur compound known as the ‘beauty mineral.’ Most concentrated in skin, nails and hair and essential to produce collagen.

**Coffee Berry:** one of the most potent natural antioxidants. Neutralizes free radicals and reduces redness.

**Raspberry Leaf:** tightens skin and mimizes pores. High in Vitamins A, C and E and Omega 3 and 6 fatty acids.
